

## AntiFoam AKS-31

### DESCRIPTION

**Antifoam AKS-31** is a strong silicone based defoamer which does not have any impurity which could make disturbance during production process. Low viscosity and high defoaming power are two great properties of this product.

---

#### Specification

---

<b>Appearance</b>	Thick Milky Liquid
<b>Nature</b>	Polydimethylsiloxane
<b>Ionity</b>	Nonionic
<b>pH (1:10 solvent)</b>	7 ± 0.5
<b>Viscosity (25°C)</b>	350 - 500 cp
<b>Solubility (25°C)</b>	Dispersible in cold water
<b>Density, gr/cm<sup>3</sup></b>	1.003
<b>Safety</b>	According to our best experience, it does not have any harmful effect on health.

---

### Product Handling, Storage and Shelf Life

To ensure safe storage of this product, containers should be well sealed to prevent water evaporation and skin forming. The product must be stored between 5-25°C for maximum 6 months.

Freezing and direct sun light must be avoided.

### Applications and Recommendations

**Antifoam AKS-31** is a great defoamer suitable for several industries such as textile, paint, detergent, oil & gas, etc. **Antifoam AKS-31** is effective in neutral, acidic and basic (up to 10) environments.
